2026 Flushing Notice for the Perth South Water Systems

The Ontario Clean Water Agency (OCWA) will be flushing watermains for the Perth South Water Systems in your area.

Sebringville Drinking Water System - June 11th, 2026

You may experience discoloured water coming from your tap. If this happens, we suggest you try the following:

- remove the tap aerators from your taps and flush all the house lines until the water runs clear.
- flush out your hot water tanks. This is to remove the accumulated iron that settles out in the tank; this iron may also decrease the efficiency of your water tank.

Should your water continue to be discoloured, please contact the Ontario Clean Water Agency, Stratford Hub at the number below.

OCWA will continue to work on the flushing programs to ensure consumer satisfaction.

For additional Information, Please Contact:
